

Building & Protecting Subsea Cable Networks

G8 Subsea combines leading Technologies and Proven Experience to develop, construct and protect our Telecommunications & Power Networks. Our approach combines proven technology and experiences from the North Sea with full project integration to support subsea installation project in Asia.

- PROJECT FINANCING & PLANNING
- SHORE END & CABLE PROTECTION
- MARINE SURVEY & ROUTE CLEARANCE
- VESSEL SUPPORT & CABLE LOGISTIC SERVICES

We are your proven partner for Submarine Cable Projects in Asia with a commitment for Quality, Technology & Innovation in the projects we deliver.
